

How to create an MJSD TWI Scope and Sequence

All lessons will be developmental and follow the Gradual Release of Responsibility

Science and Literacy Scope and Sequence with UOS

1. Map out which science standards fit together--the goal is for 6-7 units over the year with no more than 6 weeks to a unit.
2. Read science standards carefully:
 - a. Read the NGSS practices, disciplinary core ideas, and crosscutting concepts, as well as the connections to literacy standards
 - b. Select strategies to focus on for science **and** language
3. Create a big idea based on the science content
4. Read the Calkins Unit --
 - a. Use the Unpacked suitcase for the unit overview, big ideas, and essential questions
 - b. take notes on the key practices
5. Link the writing and science to the readers workshop
6. Determine the reading standards for the readers workshop and use the BURKE Book, as well as the link to the unpacked standards
7. Determine the language needed for science and for literacy (WIDA)
8. Determine the strategies students will need for science, writing, and reading

SS and Literacy Scope and Sequence

1. Look at the suggested pacing guide for social studies and create Big Ideas that link the standards
2. Follow the steps from above
